

Affiliate Disclosure

Service: AI Fitting Room — virtual try-on at [□](#) **Operator:** Iryna Ribeiro Stylist Marketing Management — see [Legal Notice](#) **Last updated:** 25 August 2026

1. The short version

When you tap a "buy" or "shop" link on this site, you leave us and go to the retailer's own shop. Where those links are affiliate links, **we may earn a commission if you buy something** — at **no extra cost to you**. The price you pay is the retailer's price; it is not increased because you came from here.

2. What an affiliate link is

An affiliate link is an ordinary link to a shop that carries a marker identifying the site that sent you. If you buy after following it, the retailer or an affiliate network pays the referring site a percentage of the sale. It is a standard way for content sites to be paid without charging the reader.

3. How it works on this site

- Product links come from a **partner product feed**. Each product carries the retailer's own shop address, and we show it as the buy button for that item.
- Where the feed supplies an affiliate link, following it means the retailer or the affiliate network can attribute a resulting purchase to us.
- **Attribution happens on the retailer's side and on the network's side**, after you leave our site. We do not place an affiliate tracking script or an affiliate cookie on our own pages — see the [Cookie Policy](#).
- The affiliate network or the retailer may set their own cookies on their own site, under their own privacy and cookie policies, which we do not control.

No affiliate network is connected at present, so no commission is earned on anything shown here. When one is, this page will name it and link to its privacy policy.

4. What this does and does not change

It does not change:

- **The price you pay.** A commission is paid by the retailer out of its own margin.
- **Which items you see.** Commission rates play no part in what appears in the catalogue or in what order. Items are selected because their product image works for a virtual try-on and because their brand is on our list — not because of what they pay.

- **What the try-on shows you.** The AI result is generated from your photo and the garment image. Commission plays no part in it.

It does mean:

- We have a **financial interest** in you buying through our links. You should weigh that as you would any recommendation from a paid source.
- Any styling suggestion or featured item on this site should be read as **not independent advice** where commission is involved.

5. Where the disclosure appears

Beyond this page, the affiliate relationship is disclosed:

- in the [Terms of Use](#), section on third-party retailers;
- in the interface, once a programme is active: a line next to the buy button and a permanent link to this page in the footer. Neither is shown today, because there is nothing to disclose — no programme is connected and no commission is earned.

6. Your purchase is with the retailer, not with us

We do not sell the garments. We do not hold stock, set prices, ship, or handle returns. Your contract is with the retailer, on the retailer's terms. Questions about an order, a delivery, a refund or a return go to them.

We are not responsible for the retailer's product descriptions, prices, availability, delivery, or customer service, and a garment shown in the catalogue may be out of stock or changed by the time you reach the shop.

See also: the try-on result is an **AI visualisation and not an accurate depiction of the real garment** — check the retailer's own images and size guide before buying. This is explained in the [AI Photo Processing Disclosure](#).

7. Your data and affiliate links

Following a link to a retailer takes you outside our service. From that moment, the retailer's and the network's privacy policies apply. We do not send them your photograph, your try-on result, your phone number or your email address.

No affiliate parameters are attached to our links today. When a network is connected, we will state here what its links carry, and nothing in them will identify you.

8. Regulatory framing

Primary framework: UAE advertising and consumer-protection rules.
